Antiterrorism

Defensive measures used to reduce the vulnerability of individuals and property to terrorist acts, to include limited response and containment by local military forces.

Joint Pub 1-02 (15 Oct 01)

4th MEB (AT) Mission

To provide rapidly deployable and specially trained forces that are capable of detecting detering, and defending designated objectives against terrorism; and of conducting initial incident response in the event of chemical, biological, radiological, or nuclear terrorist attacks, worldwide.

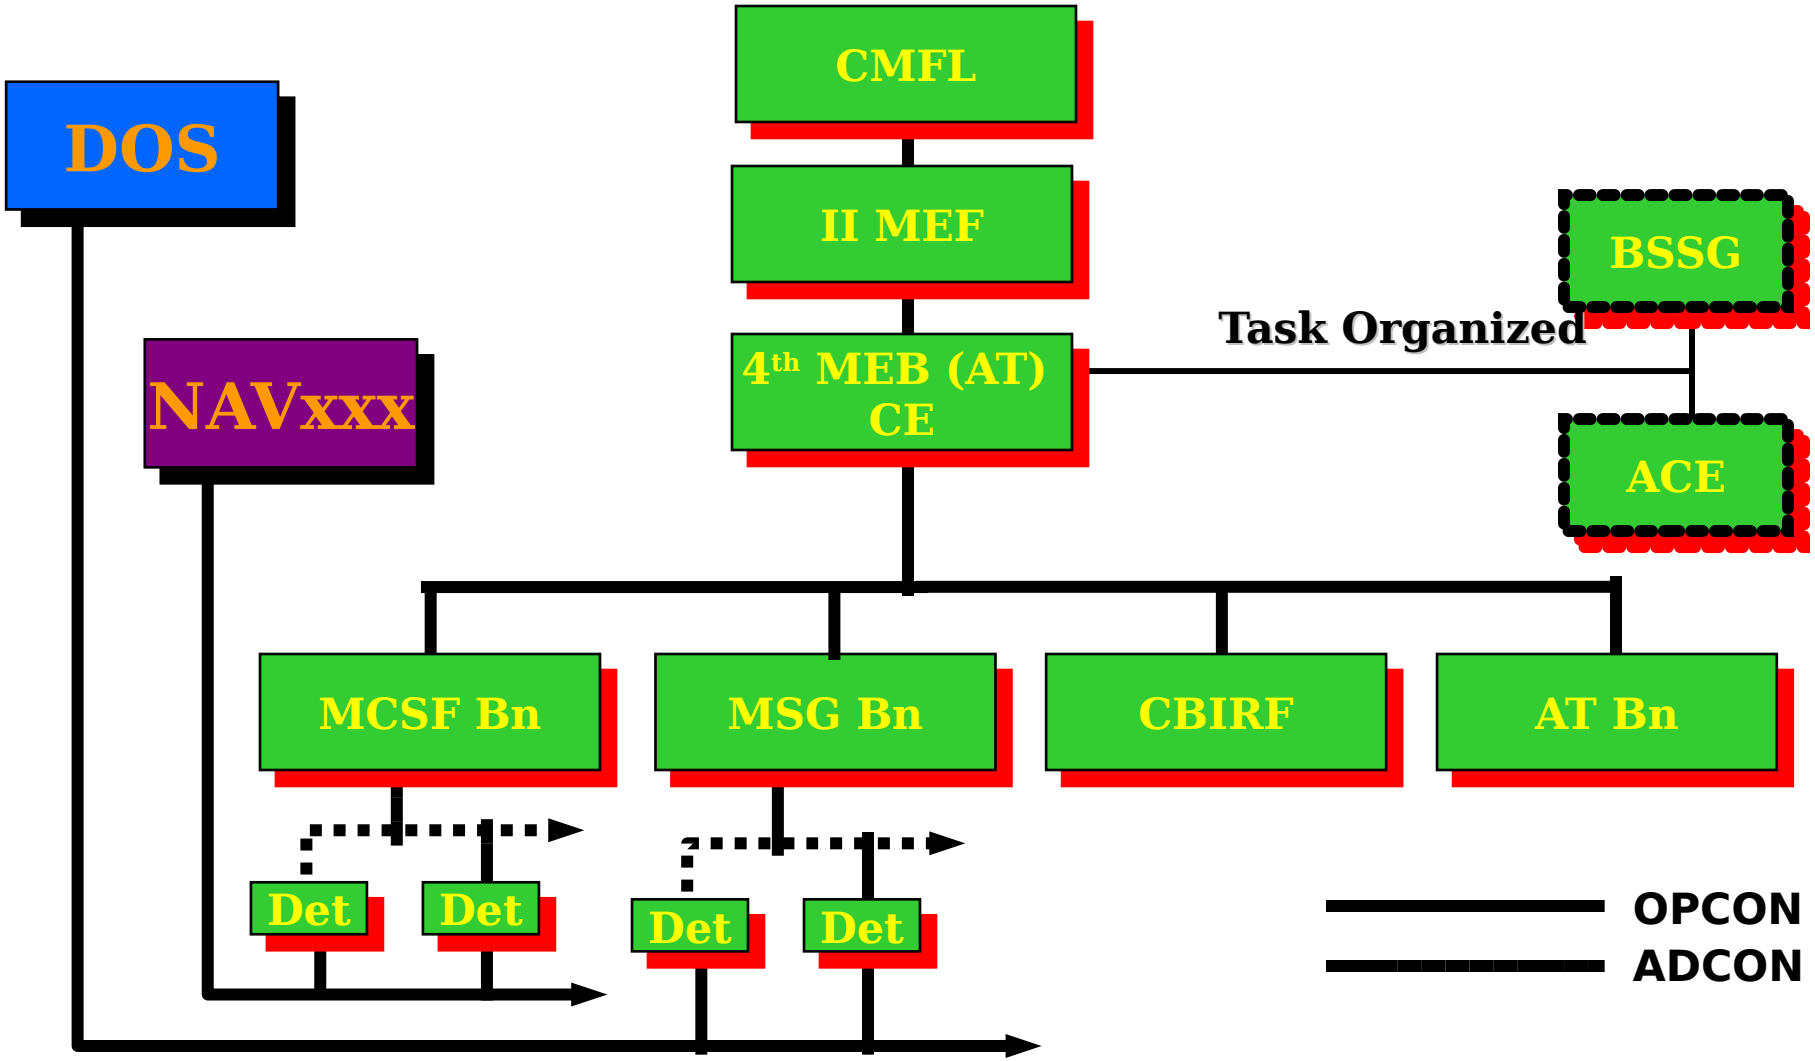
4th MEB (AT) Capabilities

- Provide combat ready AT forces
- Operate in a full spectrum environment
- Deploy via strategic lift to conduct expeditionary AT operations
- Execute short-notice, rapid response AT operations
- Conduct AT operations to detect, deter, and defend
- Conduct Security Operations
- Exploit all-source intelligence
- Employ advanced AT technology
- Employ prepositioned response forces
- Integrate and operate with other Marine Air-Ground Task Forces and non-organic forces (Joint, Coalition, Interagency)
- Conduct Chemical, Biological, Radiological, Nuclear, and High Yield Explosive (CBRNE) incident response AT operations

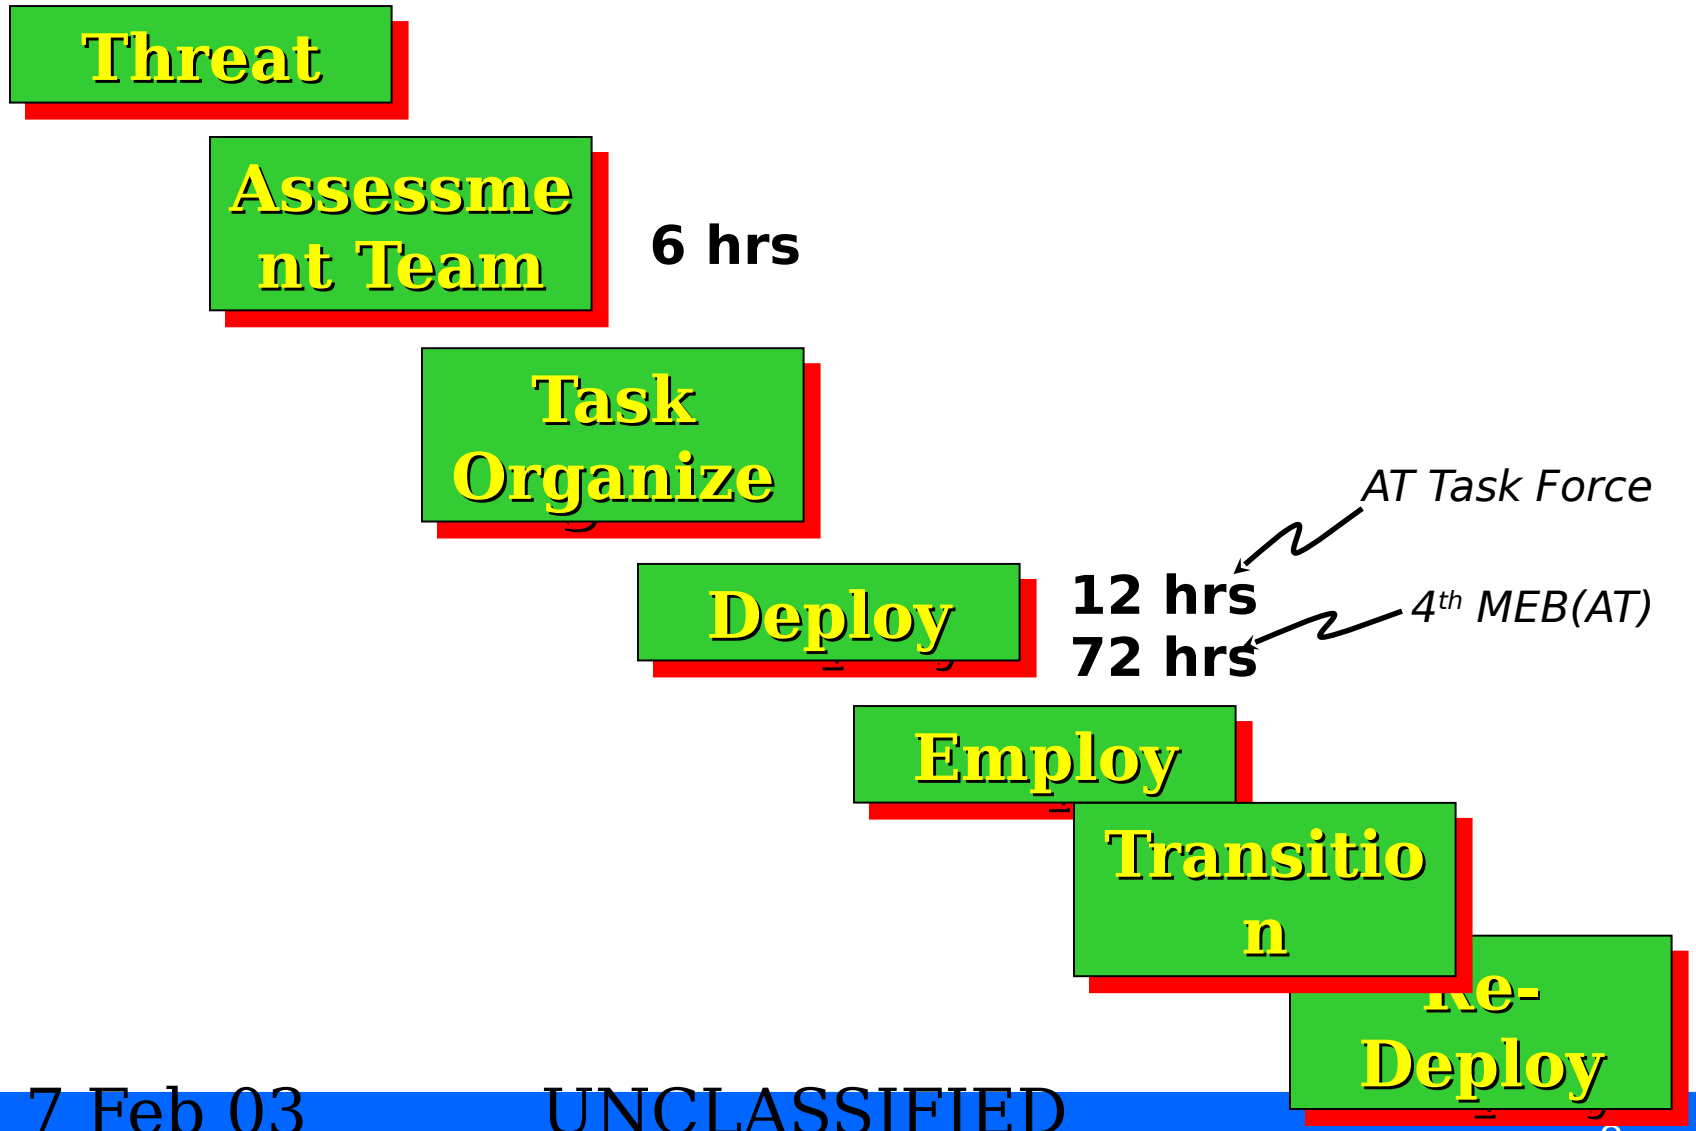
4th MEB (AT) Mission Profiles

- **Provide command and control for anti-terrorism task forces up to Marine Expeditionary Brigade size.**
- **Conduct surveillance detection/counter-surveillance operations.**
- **Conduct port and/or airfield security operations, e.g., as a Maritime Pre-positioning Force (MPF) enabler.**
- **Reinforce the physical security of fixed facilities, e.g., U.S. Embassies or Joint Force Headquarters.**
- **Conduct full-spectrum antiterrorism security operations within and around vital combatant commander assets.**
- **Conduct urban security patrols.**
- **Conduct forward operating base (FOB) security and quick reaction forces (QRF).**
- **Provide covering forces in support of other operations, e.g., as cordon or trailer elements for another task force.**
- **Conduct small-scale limited objective raids, e.g., to interdict imminent terrorist attack.**

Organization



4th MEB (AT) Employment



Marine Security Guard Battalion

- Headquartered in Quantico, Virginia
- 9 MSG Companies
- 131 Detachments Worldwide

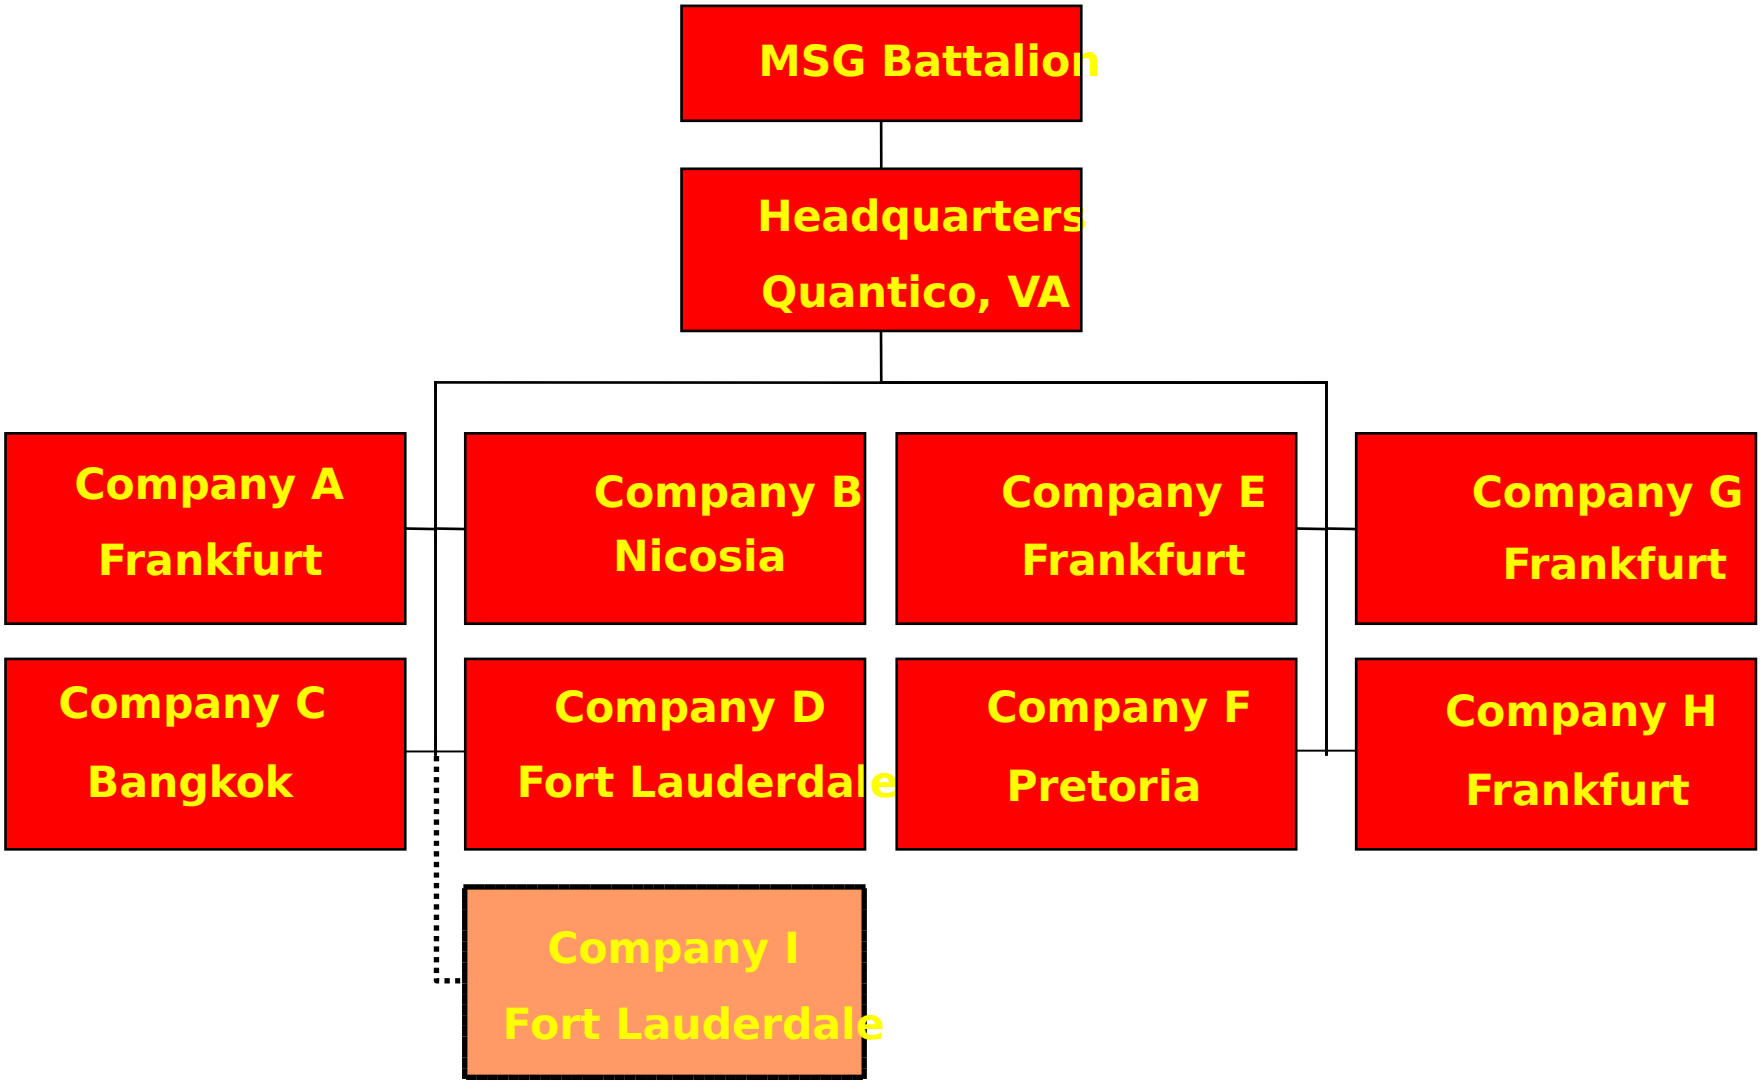
MSG Bn Mission

To exercise command over all administrative, logistical, and operational matters in accordance with the State-Defense departments agreement.

To provide formal training and suitability screening for selected Marines to perform duties as Marine Security Guards at foreign service missions.

Provide protection of classified and administratively controlled material and other assigned U.S. government property at foreign posts. Perform such other tasks and functions as directed by the Commandant of the Marine Corps.

MSG Bn Organization



MSG Bn Capabilities

- Provide operational control and management at designated U.S. diplomatic and consular facilities;
- Provide external support for unit training;
- Safeguard classified information, equipment, and personnel, providing a limited internal defense.

Marine Corps Security Force Battalion

- Headquartered in Norfolk, Virginia
- 7 Security Guard Companies
- 2 FAST Companies (13 FAST Platoons)

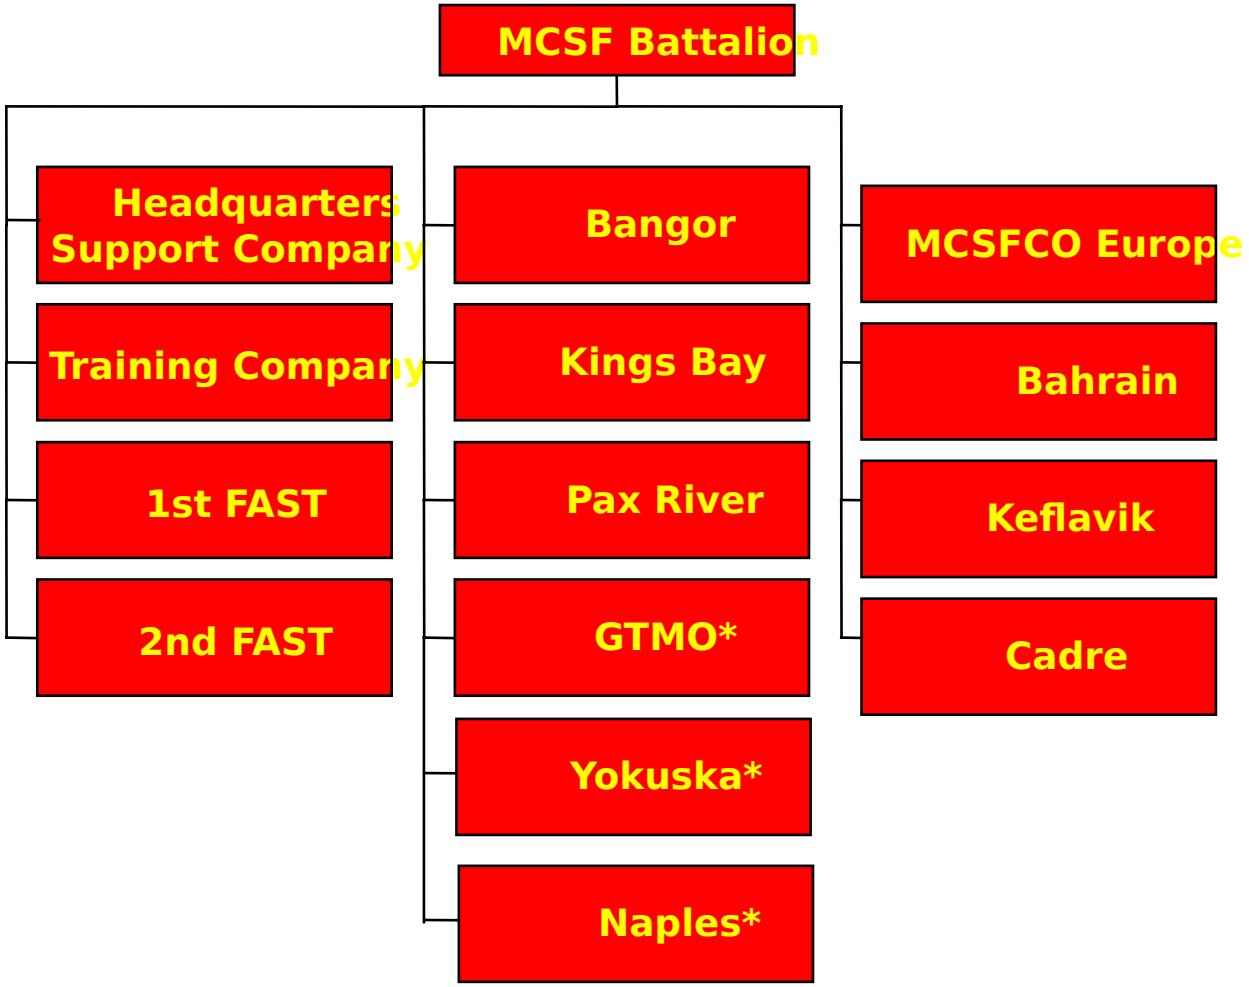
MCSF Bn Mission

Provide armed, anti-terrorism and physical security trained personnel to designated naval installations or units.

Maintain two FAST companies for deployments as directed by CNO and Commander-in-Chief, U.S. Atlantic Fleet.

Perform other functions as directed by the Commandant of the Marine Corps.

MCSF Bn Organization



*Rotational

MCSF Bn Capabilities

- Employ CQB tactics and specialized shooting skills
- Conduct short term military and emergency operations
- Operate in an urban environment
- Provide augment for sea based installations
- Provide security of sensitive assets
- Employ Non-Lethal Weapons
- Employ advanced AT technology
- Conduct Site Security Operations
- Employ Designated Marksman (DM)
- Conduct CODEL security operations (aircraft)

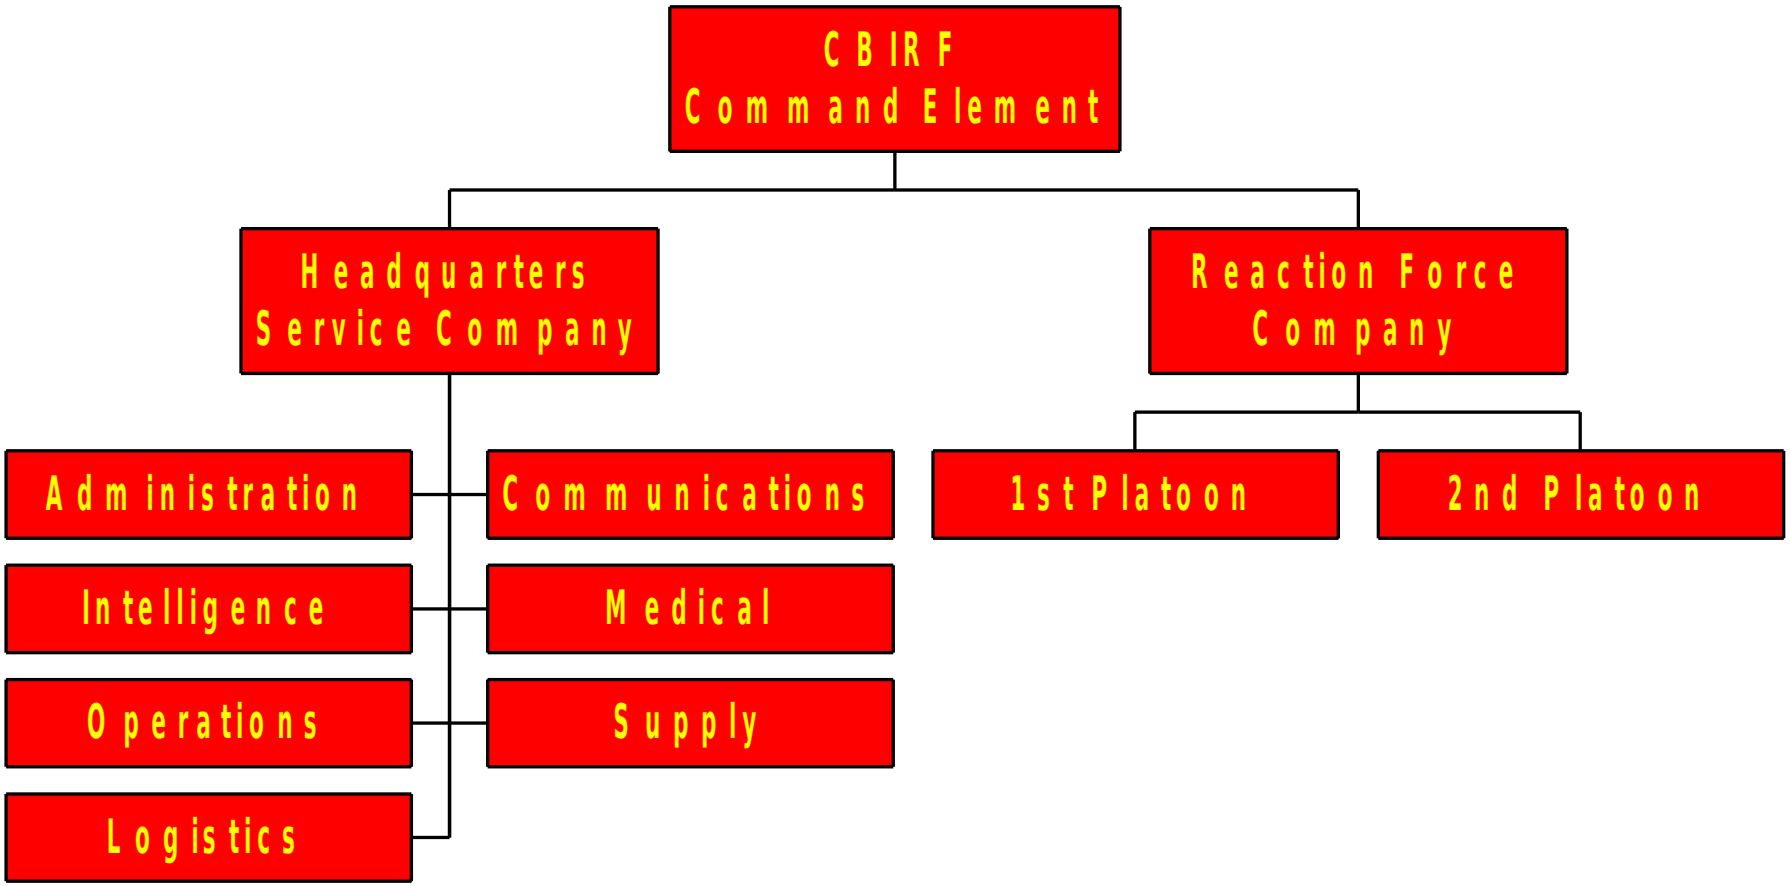
Chemical, Biological Incident Response Force

- Located at Indian Head, Maryland
- 2 Embedded Incident Response Forces
- Rapidly Deployable – 1 Hour

CBIRF Mission

When directed, forward deployed and/or respond to a credible threat of a chemical, biological, radiological, nuclear, or high yield explosive (CBRNE) incident in order to assist local, state and federal agencies and designated CINC's in the conduct of consequence management operations by providing capabilities for agent detection and identification; casualty search, rescue and personnel decontamination; and emergency medical care and stabilization of contaminated personnel.

CBIRF Organization



CBIRF Capabilities

- Provide emergency medical care of casualties within contaminated environment and medical stabilization;
- Situational size-up, casualty search and ambulatory/non-ambulatory casualty extraction;
- Conduct technical rescue operations within a contaminated environment;
- Conduct detection, identification, monitoring and sampling operations of CBRN hazards;
- Provide mass casualty non-ambulatory/ambulatory decontamination support;
- Conduct force protection (EOD) operations within contaminated environment;
- Secure tactical communications (voice/data/fax);
- Hazard prediction modeling;
- Conduct liaison with local, state, and federal agencies;
- Provide sustainment and replenishment of deployed forces.

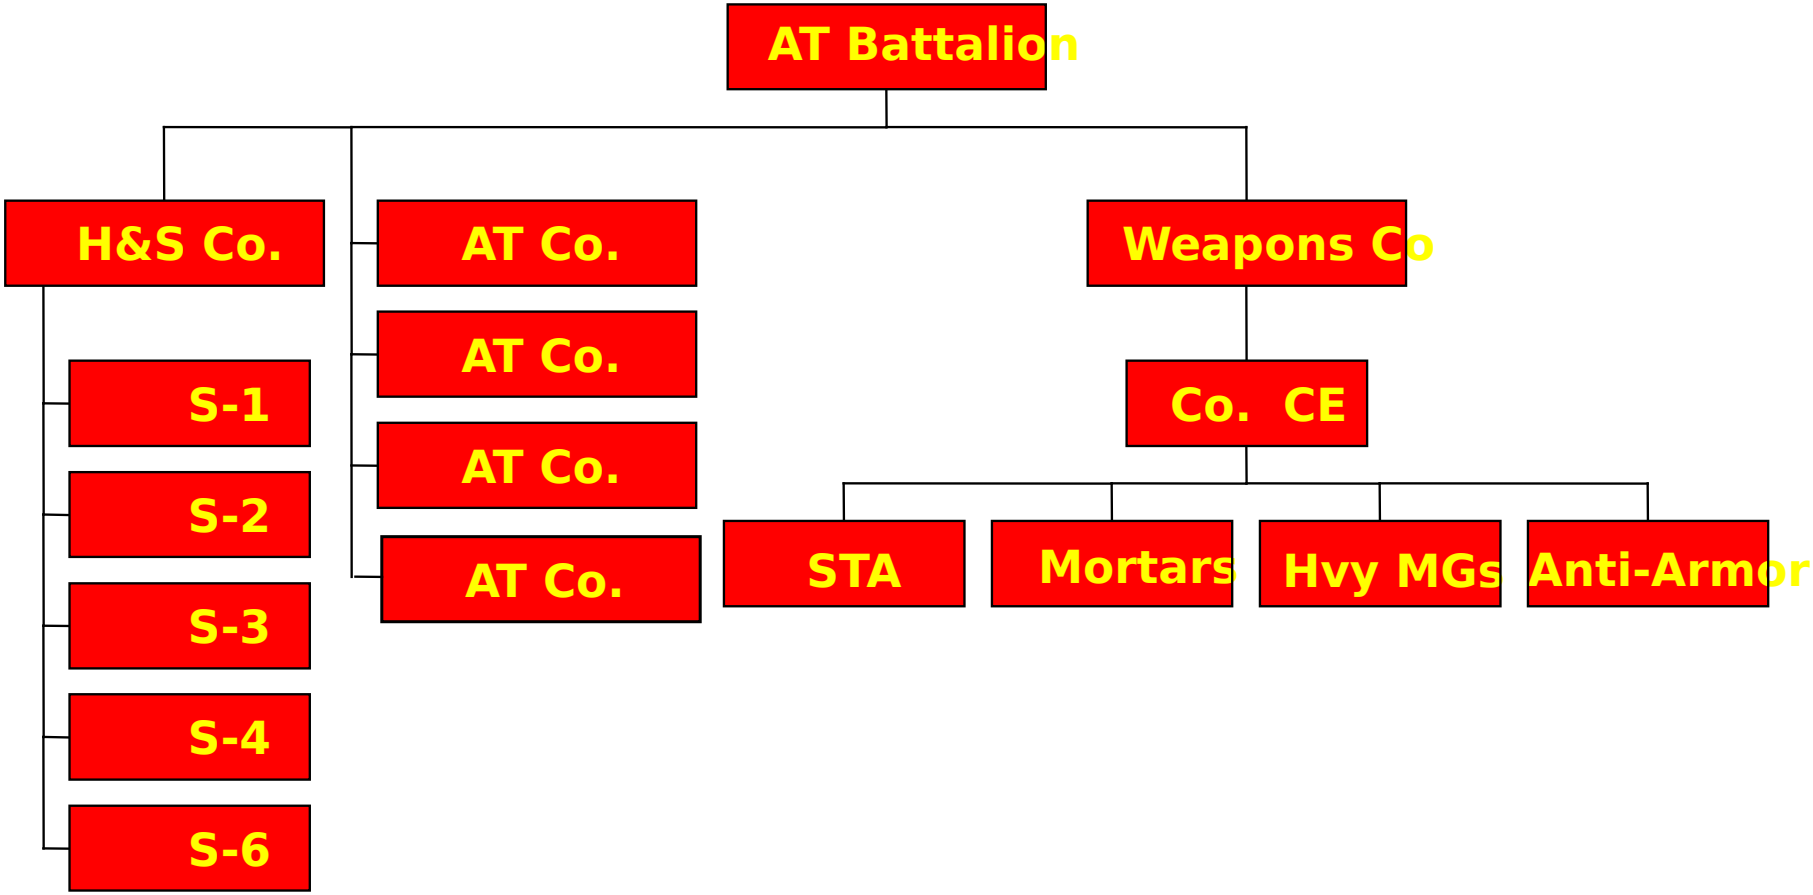
Anti-terrorism Battalion

- Located at Camp Lejeune, North Caroli
- Infantry Battalion on 1-year rotation
- Currently 3rd Battalion, 6th Marines

AT Bn Mission

The Anti-Terrorism Battalion provides rapid deployment forces to detect, deter, defend, and conduct crisis response in order to combat the threat of terrorism worldwide.

AT Bn Organization



AT Bn Capabilities

- Provide combat ready AT Forces
- Deploy via strategic lift to conduct expeditionary AT operations
- Execute short-notice, rapid response AT operations
- Conduct AT operations to detect, deter, and defend
- Conduct Security Operations
- Conduct limited offensive AT operations
- Employ Non-Lethal weapons and technology
- Integrate and operate with other Marine Air-Ground Task Forces and non-organic forces (Joint, Coalition, Interagency)
- Conduct AT operations in environments ranging from Austere to Urban
- Conduct AT operations in a high threat CBRNE environment.
- Employ enhanced marksmanship and specialized shooting skills
